

Technical data sheet

Product name: Date of issue:	Terralene® HD 4527 30 September 2021		Version: 3.0		
Designation of product, preparation a	nd manufacturer				
Trade name:	Terralene® HD 4527				
Use of product:	Biobased high density polyethylene for injection moulding applications. Contains mineral fillers. The biobased carbon content (BCC) is 95% (calculated).				
Manufacturer:	FKuR Kunststoff GmbH Siemensring 79 D - 47 877 Willich Phone: + 49 (0) 2154 / 92 51-0 Fax: + 49 (0) 2154 / 92 51-51 Mail: info@fkur.com Web: www.fkur.com				
Mechanical properties					
Modulus of elasticity Tensile strength Tensile strain at tensile strength Tensile stress at break Tensile strain at break	1,845 26 7.5 23.5 16	[MPa] [MPa] [%] [MPa] [%]	ISO 527 ISO 527 ISO 527 ISO 527 ISO 527 ISO 527		
Flexural modulus Flexural strain at break Flexural stress at 3.5 % strain	1,745 no break 25	[MPa] [%] [MPa]	ISO 178 ISO 178 ISO 178		
Notched impact strength (Charpy), RT Impact Strength (Charpy), RT	2.2 36	[kJ/m²] [kJ/m²]	ISO 179-1/1 eA ISO 179-1/1 eU		
The values listed have been established on standardized test specimens (DIN EN ISO 3167, type A) at standard temperature and humidity conditions.					
Physical properties					
Melt flow rate (190 °C/2.16 kg)	16	[g/10 min]	ISO 1133		

Melt flow rate (190 °C/2.16 kg)	16	[g/10 min]	ISO 1133
Melting temperature	130 - 140	[°C]	ISO 3146-C
Density	1.07	[g/cm ³]	ISO 1183

The figures should be regarded as guide values only. Under certain conditions the properties can be influenced to a significant extent by the processing conditions.

Processing and Handling Information

General

Terralene[®] is a compound mainly based on biobased polyethylene. It can contain additives, fossil polyolefins and reinforcing fillers. Due to its chemical sturcture it can be seen as drop-in solution to replace fossil polyolefins and shall be handeled and processed like standard polyolefins.

Drying

If packed in its original packaging and stored in good conditions drying is not necessary. If moisture uptake is too high, Terralene[®] can be dried at 60 °C for a period of 2 - 4 hours.

Storage

If not specified otherwise product life is 6 month after shipment from Sellers warehouse if product is in its original packaging, stored under dry (max. 70% relative humidity) and dark conditions (not exposed to sunlight at a temperature of 5 °C to max. 30°C (ambient temperature). It is important to observe that a major drop in external air temperature (e.g. during transportation) can result in a development of water condensate. Prior to the processing of the material, it should be ensured that there is no condensate on the packaged product.

Finished products made from Terralene[®] shall be stored dry and cold. It is recommended to wrap goods in black PE liners to protect them against moisture and UV radiation. Storage time depends on processing parameters and of climate conditions in the respective area. Because of these essential and complex interacting parameters, FKuR Kunststoff GmbH cannot give any shelf life guarantees for finished products. Please notice that the conditions mentioned above depend on experience of our customers. Each customer should execute individual storage tests according to product specifications and storage requirements.

Technical data sheet

Product name: Date of issue:	Terralene® HD 4527 30 September 2021			Version: 3.0
Processing conditions for in	jection moulding			
Machine settings:	Feeding Zone Zone 1 Zone 2 Zone 3 Machine nozzle Mould temperature	15 - 40 190 200 210 215 40	[°C] [°C] [°C] [°C] [°C] [°C]	
	Holding pressure level Melt cushion (of volume) Cooling time Max. dwell time	40 - 70 3 - 10 15 300	[%] [%] [s] [s]	
General advice:	Regrind sprues and runners can be reu	used at 20%.		

Legal notice

Neither FKuR Kunststoff GmbH nor its marketing affiliates shall be responsible for the use of this information or of any product, method or equipment mentioned. Customers must undertake their own determination of this product's suitability and completeness for their own use, for the protection of the environment, for the health and safety of their employees and purchasers of their products. No warranty is made of the merchantability or fitness of any product, and nothing herein waives any of the seller's conditions of sale.

The current version of General Conditions of Sale of FKuR Kunststoff GmbH is valid.
